

TWINBROOK FARM

(WORTHINGTON)

RINGVILLE, P. O.

MASS.

Nov 4. 22

Dear Clarke:

Glad to get your
note of Nov 3. I am keen to
see your article. I know you
and I will be in accord on
main facts. I did an awful
lot of checking up, for I have
a mass of statements in my
possession - to go to the Museum
some day. Of course there are
variations, but I have "quoted"
freely, especially the Old Man
and stuff that hadnt been
quoted before, like Wheeler's
I am glad you looked
up my 1887 "Elec World" article.

of which I don't seem to have a
copy, although I thought I had.
It may be in the dump somewhere.
While up here in illegitima
I am going to try to sort my
papers, although most of the
Edisoniana is already massed.

Last week in town I gave
the Museum an Edison photo
and autograph to me of Aug 30,
1878 - and an 1879 vintage lamp
given me by Frank Repton -
quite a rare bird. Both better
in the Museum than in
private hands, you will agree.
Some day next summer you
and family must come and see
my hillside Berkshire farm where
I listen to brooks that once sang
to Bryant.

Ever yours
T. W. Higginson

P.S. I think I advised you of my
action to secure our Edison Medal rep
for an Edison central station man
